

Offer for transportation from Italy

Having problems with import of metallurgical products from Italy to the Czech Republic, Poland or Slovakia?

ČD Cargo will solve them for you and will arrange transport of semi-finished steel products, steel profiles, wire coils and other metallurgical goods from the steel mills in Udine, Osoppo and other destinations. You don't have a railway siding? It does not matter. By using logistics centers in Ostrava and Lovosice we will arrange transport of your goods as far as your home.
